Dear Ladies and Gentlemen,
Dear Friends,

We are pleased to announce one of the biggest scientific events: 13th INTERNATIONAL MULTIDISCIPLINARY SCIENTIFIC GEOCONFERENCE AND EXPO - SGEM 2013

This geoevent will be held during the period 16 - 22 June 2013 at Albena Resort & SPA, Bulgaria.

The SGEM GeoConference focuses on the latest researches and technologies in Geosciences, covering 25 scientific topics from the fundamental and applied sciences. [/more/](#)

All accepted papers will be published in a conference proceedings (ISSN 1314-2704) indexed by ISI Web of Knowledge, Web of Science, Thomson Reuters, CrossRef, EBSCO, Proquest, GeoRef, Google Scholar, Microsoft Academic, Mendeley, CiteUlike, UlrichsWeb, CrossRef Citedby Linking, British Library and evaluated to SCOPUS, Engineering Village, Scirus.

The GeoConference is the best platform for knowledge and experience sharing in the fields of Geosciences. Invited session, special workshops and expo will be held as a parallel events to the SGEM2013 conference sessions. This is an additional opportunity for SGEM participants to exchange views and to learn the best practice in environmental and geo investigations and all related applications and modern management methods.

The OnLine registration for the 13th International Multidisciplinary Scientific GeoConference SGEM 2013 & EXPO IS ALREADY OPENED!

We look forward to welcoming you at the 13th International Multidisciplinary Scientific GeoConference & EXPO – SGEM 2013!

Sincerely,
SGEM Scientific Committee
